

# ACCESSIBILITY GUIDE

# Accessibility Guide

Welcome to Contained in Nimbin – a unique, boutique stay nestled in nature. We're committed to making our accommodation as accessible and inclusive as possible. This guide outlines the current accessibility features of our cabins and property, and we're always happy to answer further questions or assist in any way we can.

## Our Commitment to Inclusivity

As a proud member of Gay and Lesbian Tourism Australia (GALTA), we are dedicated to offering a welcoming, inclusive environment for all our guests, regardless of their background or identity. We celebrate diversity and work to ensure that every guest feels comfortable and valued during their stay.

## Accommodation Overview

Contained in Nimbin offers two self-contained cabins – Nightcap and Wollumbin – surrounded by native flora, birdlife, and fresh air. Each cabin is designed to blend sustainability with comfort.

## General Accessibility Features

- Off-street parking is available within 2 metres of each cabin entrance
- Entry to both cabins is via steps onto the deck (max 7 steps)
- Open-plan interior layout with ample room to manoeuvre around furnishings
- Strong visual contrast between walls and trim (black and white) to assist guests with low vision
- Smooth, level flooring throughout living areas and bathrooms (no thresholds or raised edges)
- Large windows provide natural lighting, with adjustable block-out blinds for privacy and comfort

## Bathroom Accessibility

- Step-free walk-in shower for easy access
- All tapware is lever-style, making it easier to use for those with limited hand strength or dexterity
- Frosted window provides natural light while maintaining privacy
- Well-lit space with warm LED lighting for comfort and visibility
- Exhaust fan for ventilation and moisture control

## Bedroom Accessibility

- Beds are queen-sized and sit at a comfortable height (approx. 55cm from floor).
- Space is available on one side of the bed for ease of movement.
- Bedside storage is located above your head, built into the bed frame.
- A power point is located at the end of the bed, suitable for CPAP machine use or other medical devices. An extension cord can be provided upon request.

## Outdoor Areas

- Paths to the cabins are compact gravel and grass – suitable for most users but may present a challenge for some wheelchair users during wet weather.
- Outdoor seating is available and movable to suit your needs.
- The fire pit area is set on compacted, crushed granite with log borders, and may not be accessible for all guests. Let us know if you'd like us to help set up an alternative outdoor area.

# Accessibility Guide

## Sensory Considerations

- Our cabins are located on a quiet rural property with minimal external noise.
- Lighting is warm.
- We do not use strong scents or chemical cleaners – eco-friendly, fragrance-free products are used wherever possible.
- No flickering lights or strobe effects on-site.

## Assistance Animals

- Certified assistance animals are welcome.
- Please let us know in advance so we can provide bowls and a comfy resting spot.

## How We Can Help

We're happy to help tailor your stay to meet your needs. Whether that means rearranging furniture, providing extra equipment, or making sure information is provided in an accessible format – just let us know at the time of booking.

Contact us at [containedinnimbin@gmail.com](mailto:containedinnimbin@gmail.com) or via our [Booking Enquiry Form](#).

## Future Improvements

We're actively working on enhancing accessibility. Planned upgrades include:

- Improved signage for wayfinding around the property and cabins
- A QR-guided walk through our orchard, offering an interactive, self-paced experience for all guests
- A beautifully illustrated flora and fauna guide, helping guests connect with the local environment at their own pace.

---

Contained in Nimbin is a space where all guests should feel at ease, welcomed, and supported. If you have specific needs not listed here, please reach out – we'll do our very best to accommodate.
